Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

James Kantor 2110 Paces Forest Ct Apt 435 Raleigh, NC 27612-6433 (919) 523-6773
